

# The shocking child labor

*The horrible conditions of child labor .*

**Martel Charlotte , Ploux Esther et Lalaison Louise**

25 November 2016

*Many children in the world are exploited and they work in terrible conditions. They work to help their family.*

*126 million of children are forced into hazardous work .*

We have interview a Pakistani girl named Pharady who works in a bricks factory with her mother and her little sister. She works because her father is died 5 years ago and to help her family. She works from 6 in the morning to 6 at night. She is working in atrocious condition since 3 years.

She dreams of becoming a teacher and she wants go to school but it's impossible because she has no choice but work. She can 't play.

No children in the world shall be obliged to work . Any children can have fun.

Do not buy toys made by children.
