All children are working but not necessarily where you think.
Here is the story of Pharady.

Pharady is pakistani ,she's 9 years old and she's working in a brick factory. Her father is dead and she lives with her mother and her 3 little sisters.They work all in a brick factory all day to eat.

Pharady dream's is to become a teacher but it's impossible because she can't earn enough money.

There should be more association such as “free the children” to understand that it is a reality and react to child labor
